

Dear guests!

At the moment, there are no reported cases of COVID-19 at Turracher Höhe.

Holidays in our region present no health risks, provided all hygiene and safety measures are observed.

As we welcome you to our popular excursion and holiday destination, we are committed to implementing with great care all measures required to assure maximum safety for guests staying at Turracher Höhe. Cable car staff have to wear a mouth-nose cover or a face visor and support visitors in maintaining the required safety distance. The mountain and base stations have been equipped with disinfectant dispensers as well as a control system to protect guests. Since September 14th, restaurant staff are required to wear masks.

We look forward to your visit!
